We optimized for saves, not raw streams.

Every single got its own Meta campaign, two market tiers and a Feature.fm link. A playlist ran alongside the singles.

15,714
saves a day in November, from 481 in June

203,499
playlist followers, from 124

7 mo
of Meta and YouTube, single by single

Every single got its own ads and its own link.

Feed-native variants per song, each tracked to its own Feature.fm link, so we knew which creative actually moved listeners.

The creative

Feed-native variants for each single

BLUH BLUH BLUH
